From the shipping dock to the 'send' button: Exporting information and technology is easier, riskier than ever

by Jonathan Baggs

There are many ways for Marshall employees to export information. Some of these include presentations at international conferences, correspondence with foreign persons, Web site postings and visits by foreign persons.

An "export" is anything leaving the United States — including an actual shipment or transmission of a controlled item or the transfer of a controlled item to a foreign person within the United States. Controlled items not only include hardware and software, but technical data as well. These can include conference papers or other information intended to be shared publicly.

Not all items are defined as "controlled items." Items legally placed in the public domain, as well as fundamental research, are not subject to export control regulations.

Just about anyone at the Marshall Center can be an exporter.

Rip Nabors, Marshall's assistant export administrator, said most employees may not realize that "the

See Export on page 2

New NASA Web page distributes articles about Marshall Center's diverse workforce to news media nationwide

by Lynnette Madison

Diep and Huu Trinh grew up in the same small town of BacLieu in South Vietnam. They survived the Vietnam War, the fall of Saigon in 1975 and an Indonesian refugee camp.

Today, the couple works at the Marshall Center where Diep is a structural materials engineer and Huu is an

aerospace engineer.

Robbie Hood, a direct descendant of a legendary Cherokee chief and an atmospheric scientist and hurricane hunter for the Marshall Center, learned Native American history the old-fashioned way — from stories passed down generation to generation.

Marshall Center engineers Michael Shadoan and Neill Myers have designed a

knee brace that uses Space Shuttle propulsion technology to benefit the injured and disabled on Earth. Their invention could help knee injury and stroke patients, and may potentially serve people with spinal cord injuries, birth defects — such as spina bifida -- and polio.

Where do you find these -- and more

Export

Continued from page 1

shipping dock is now the "send" button" on their computer. "We're trying to increase awareness of compliance with export control," he said. "It's the law. It's not an initiative we put on ourselves."

Exporting is not forbidden, but must be done in compliance with export control regulations as defined by the International Traffic in Arms Regulations and the Export Administration Regulations.

"NASA works within an international agreement structure, so we do export things, but we just don't export everything," Nabors said. "The primary reason we have export control is national security, and that can also mean economic security."

"A lack of planning and preparation can cause delays in the approval process, especially when an engineer submits a conference paper for approval just before he or she is to present it publicly," Nabors said. "Probably the biggest concern is when an engineer goes to a conference, and goes into more detail than he or she has been approved to do."

A paper should be submitted to Marshall's Export Control Program Office three-to-four weeks before the scheduled presentation. The nature of the event, as well as who is attending, also are considered during the approval process.

Every year, approximately 1,000-1,500 conference papers are

approved at the Marshall Center, according to Nabors. "We're not here to say 'No,' but to say 'Yes,' legally," he said.

One of the frustrations for engineers and other employees is that export regulations are not "black and white," but subject to interpretation.

"We don't want to be viewed as a bottleneck," Nabors said. "Most people don't realize we're trying to keep them out of trouble. We're here to offer them counsel about the regulations."

Possible penalties for violations of export regulations are up to 10 years in prison and/or fines up to \$1 million.

The Center's export administrator is Dale Thomas. Other members of the Export Control Program Office are Vanita Brown, who works in process management and training, and George Kozub of export planning.

Each Marshall directorate and department has a trained export control representative. To find out who your representative is, or for more information, go to <http://smo.msfc.nasa.gov/SMO/Export/>

More information also is available in the Export Control Module on the SOLAR Web site on "Inside Marshall" or go to the NASA Headquarters site at <http://www.hq.nasa.gov/>

The writer, employed by ASRI, is the editor of the Marshall Star.

Diversity

'Family Fun Day' offers something for everyone

by Martin Jensen

Family Fun Day 2002 is from 10 a.m. - 2 p.m. Saturday at the Marshall picnic grounds. All Marshall civil servants, retirees, contractors and their families are invited to attend.

Events begin at 9:45 a.m. with a children's parade, while midway games for all ages will help create a carnival-like atmosphere. Other activities include bingo for adults and teenagers, a NASCAR-style racing simulator, "awesome inflatables" and a special "kiddie-korral" for the youngsters. The "Turbulence" cheerleading squad from the Huntsville Flight also will attend the festivities.

One of the highlights will be an appearance by Martin Martinez, a performance artist noted for his use of choreography and music to help him create unique artwork.

Other activities include auto-graph signings by astronauts, the Starship 2040 exhibit — a mock-up of what a future passenger space airliner could look like, along with fire trucks and other emergency and rescue vehicles provided by HEMSI.

If that is not enough, military hardware, along with custom cars, vintage airplanes and a Huntsville-Madison County Rescue Squad display will be on view.

Lunch will be served from 11 a.m.-1 p.m., with the options of barbecue pork plate, chicken plate or garden burger. Meal tickets are available for \$6 from your administration officer, or can be purchased at the Internal Relations and Communications Department, Bldg. 4200, room 101. Participants will receive two door-prize tickets for each meal ticket purchased.

Tickets will be required for midway games, the racing simulator, inflatables and concessions at 25 cents a ticket. For every \$5 of tickets, participants will receive one door-prize ticket.

Marshall team members and their families can expect to find great music and fun at the main stage. Scheduled to appear are the

jazz band "Abstract," and rock band "Gryphon."

A magician, clown, Scooby Doo, Spider-Man, the Marshall Safety Mascot and "Cosmos" the Huntsville Flight Mascot will be at the children's stage.

Marshall Center Director Art Stephenson and Deputy Director Jim Kennedy, along with others, will appear in the dunking booth.

For more information, contact Angela Storey, Internal Relations and Communications, Bldg. 4200 room 101E, 544-0632.

The writer is a graduate co-op student from Utah State University, supporting the Media Relations Department.

2:00 p.m.	FAMILY FUN DAY Ends

Parking and picnic pass procedures for 'Family Fun Day'

By agreement with the Provost Marshal Office (PMO), the following procedures will apply for the Marshall Center 'Family Fun Day' picnic on Saturday:

- The MSFC picnic pass (pink in color) is approved for use by families and friends. Employees can pick up the passes at these locations: Identification & Registration, Building 4312, Lobby of Building 4200 and Room 101E in Building 4200.

- Only Gate 9 may be used for entry by visitors using the picnic pass.

- Visitors using the picnic pass must enter through the visitor lane, stop and show a driver's license and proof of insurance upon request. Employees should remind their guests that the security officer will not grant entry if the required information is not available until an escort can be arranged.

- The picnic pass must remain visible on the dash of the visitor's vehicle at all times.

- Visitors may leave through either Gates 1 or 9.

- In some cases, visitors may not have received a Marshall Center picnic pass in advance. In these cases, a NASA employee must escort them from the gate.

Dunking booth schedule

Jody Singer		Jim Kennedy	
Chris Singer	10 a.m.	Bernie Kennedy	12 (noon)

Center Announcements

All Hands meeting with Administrator O'Keefe

There will be an All Hands meeting with Administrator Sean O'Keefe on Thursday from 11 a.m.-noon. in Morris Auditorium, Bldg. 4200. All Marshall civil servant and contractor employees are encouraged to attend.

Meal tickets for 'Family Fun Day' on sale through Friday

Meal tickets for the Marshall Center's 'Family Fun Day' annual picnic on Saturday, are on sale through Friday. Tickets cost \$6 each for a barbecue pork plate, chicken plate or garden burger. With each meal ticket purchased, participants will receive two door-prize tickets. Meal tickets are on sale through department administrative offices, in the lobby of Bldg. 4203 and at the Internal Relations and Communications Department, Bldg. 4200, Room 101.

Did you once race a moonbuggy?

Planning for the 10th annual Great Moonbuggy Race, to be held in 2003, has begun. Organizers would like to find any Marshall team members who once raced on a moonbuggy team. For more information, call Durlean Bradford at 544-5920.

WebTADS training notice

NASA Administrator Sean O'Keefe has requested that time keeping be delegated to the employee level. Training is now available to Marshall employees on WebTADS timesheet entry and NASA standardized policies. The WebTADS training team will be contacting the administrative officer or management support assistant of each organization to coordinate training dates and location. The training sessions will last about two hours and will include timekeeping standardized policies and a WebTADS system navigation demonstration. Labs will be available as needed for additional practice. Administrative officers or management support assistants should call Pam Vaughn at 544-9372 for additional information.

NASA Ski Week reservations being accepted

The 12th-annual NASA Ski Week will be at Big Mountain ski resort in Montana Feb. 22-March 1, 2003. This is a 3,000-acre ski resort overlooking Glacier National Park. All Marshall team members, retirees, spouses and dependents are eligible to participate. For more information, call 233-0705 or e-mail Thomas.S.Dollman@msfc.nasa.gov.

NASA Bowling League meeting

The NASA Bowling League will hold an organizational meeting Aug. 20. The league will start Sept. 3 at 6 p.m. at Monarch Lanes. All Marshall team members and dependents are eligible to participate. For more information, call Chuck Seal at 544-1120 or Rob Lake at 544-1176.

AMPET Conference registration now open

All Marshall team members are invited to attend the fifth Conference on Aerospace Materials, Processes and Environmental Technology (AMPET) on Sept. 16-18 at the Von Braun Center. Registration is open and must be completed by Sept. 2. Civil servants interested in attending the conference must submit a Conference Form 1265 to CD20-ITI/Linda Law. There is no charge for civil servants. The cost for contract employees is \$345 per person. On-line registration and on-site registration is available for non-Marshall employees. For more information, go to <http://ampet.msfc.nasa.gov> or call Linda Law at 544-3930.

LEARN for Weight Management

Civil servants and contractors interested in finding out about a 16 week lifestyle change program called LEARN (lifestyle, exercise, attitudes, relationships, nutrition) are invited to attend an orientation at the Wellness Center in Building 4315 on Aug. 27 at 9 am. Spaces are limited and priority is

given to civil servants who can take the class free of charge. Any remaining spaces are offered to contractors for \$30. Excused leave is granted to those participating in the class, which consists of one hour, once a week, for 16 weeks. The day and time of the class is decided upon by the class.

Donations accepted for CFC silent auction

The Tennessee Valley Combined Federal Campaign office will conduct an on-line auction to raise funds for local charities during its fall campaign. The CFC office is looking for donations of paintings, flower arrangements collectibles, antiques, etc. For more information, call Gay Money at 876-9143 or Phyllis Henley at 842-1037.

Administrative professionals to meet Aug. 27

The International Association of Administrative Professionals will hold its monthly meeting from noon-1 p.m. Aug. 27 at 301 Sparkman Drive, Von Braun Hall, Room M-50, at UAH. A luncheon and networking session begins at 11:30 a.m. For lunch reservations, contact Paulette Bell at bellp@email.uah.edu or for more information call Rhonda Griner at 824-6101.

Shuttle Buddies to meet Aug. 26

The Shuttle Buddies will meet for breakfast at 9 a.m. Aug. 26 at Mullins Restaurant on Andrew Jackson Way. For more information, call Deemer Self at 881-7757 or Gail Wynn at 852-8189.

Marshall Association meeting

Marshall Center Director Art Stephenson will address the Aug. 22 Marshall Association meeting at the Redstone Officers' and Civilians' Club. The event is from 11:30 a.m.-1 p.m. Stephenson will speak on "Marshall Leaders for the Future." Cost of the luncheon is \$8.50 and reservations can be made by calling Cliff Bailey at 544-5482.

Employee Ads

Editor's note: Updated employee ads for the week of Aug. 8 were inadvertently left out of the Marshall Star. This week's issue features both those ads and the current ads.
